U.S. Agricultural Trade Update

Economic Research Service
U.S. Department of Agriculture

✓
August 21, 1989

Trade Surplus

June Trade Surplus Declines Slightly - June's agricultural trade surplus decreased by \$44 million from May to \$1.3 billion. Farm product exports fell \$270 million from the previous month to less than \$3.1 billion. Imports also declined, to \$1.7 billion, bringing the cumulative trade surplus for the first nine months to \$14.5 billion (table 3).

Exports Down - U.S. agricultural exports fell seasonally in June to just over \$3.0 billion. Cotton, animal feeds, rice, tobacco, fruits, vegetables, and vegetable oils were lower, while wheat, corn, soybeans, and sorghum increased from the previous month (table 5).

Wheat exports of 2.5 million tons matched May's performance, bringing the October-June total to 26 million tons valued at \$4.2 billion. The Soviet Union, China, and Japan were the major markets, supplemented by sales to South Korea, Egypt, and Bangladesh. Some large markets of a year ago--notably North Africa and Eastern Europe--have dramatically reduced their demand for U.S. wheat.

Corn exports of 5.7 million tons valued at \$684 million brought the U.S. total for October-June to 41.6 million tons and \$5.1 billion. The Soviet Union took 1.9 million tons in June, bringing their 9-month total to 14.7 million tons. Japan, Korea, and Taiwan combined accounted for 2.5 million tons. As of August 10, corn sales to the Soviet Union for crop year 1988/89 amounted to a record 16.7 million tons.

Soybean exports of 849,000 tons during June were up 218,000 tons

from the previous month. Japan, Taiwan, and Mexico were the primary markets. Through June, U.S. soybean exports to the EC totaled 5.6 million tons compared with 9.2 million tons a year ago. The EC has reduced both soybean and soybean meal purchases from the United States.

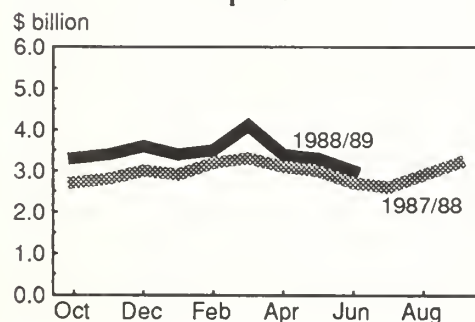

Cotton exports fell 63 percent to \$75.2 million. After an increase in May to 148,000 tons, exports in June fell sharply to 55,000 tons.

Imports Begin Summer Decline - U.S. agricultural imports fell \$225 million in June to \$1.7 billion. June generally marks the beginning of a summer decline in imports. Fresh fruit and vegetable imports, the most seasonal of all major commodity groups, fell \$74 million in June. Coffee, cocoa, rubber, and tobacco were also lower. Gains, however, occurred for vegetable oils and sugar (table 6). (Steve Milmo, 202-786-1821).

Japan Still Top Export Market -

Although shipments of farm products in the April-June quarter eased slightly, exports to the USSR and Korea accelerated. Japan remained the leading agricultural market during the first 9 months, taking a record \$6.3 billion. The USSR moved up to second place as export values jumped 78 percent to \$3.0 billion. Exports to Mexico more than doubled last year's pace, approaching \$2.1 billion. Korea emerged as fourth largest, taking over \$1.9 billion. Farm commodity shipments slowed to most EC destinations (table 4).

Exports

Imports

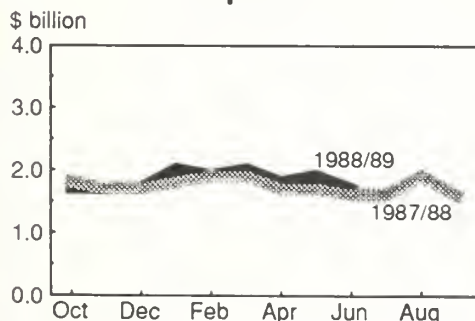

Table 1--U.S. agricultural exports: Quantity and value by commodity

| Commodity group and unit | October-June | | | | June | | | |
|-------------------------------------|----------------|---------|--------------|------------|----------------|--------|--------------|-----------|
